Subject: Meggitt floodlights ref. P/19/1562/2

Hello

I'm a resident of Belvoir way Shepshed just to voice concern on this matter of 14 floodlights. There's some already at the rear of our house that now shine through the trees because it's the time of year of losing the leaves, this now illuminates our bedroom and bathroom. If there's any way of redirecting the light that would be great.

Regards Dean
