Joseph Lanes

17 Jenham Drive

Sileby

I'm concerned with the potential impact the proposed bungalow to the rear of the development will have on our gardens natural light and overall privacy. Additional car noise is also a concern with the driveway of the proposed site to the bungalow planned to run alongside our neighbours boundary.

We purchased our property in February 2021 in part due to the gardens privacy and abundance of wildlife, which has already been significantly impacted after the trees on the site were felled. I expect this will be much worse upon completion of the development looking at the proposed site plan.

I have no doubt that my concerns will most likely be of no significance to the developer however I wanted them to be known never the less.

Thank you for hearing me,

Joe
