Subject: FW: Planning applications P/20/2251/2 and P/20/2252/2

Hi,

I sent the attached document as my comments to the original application – see below. I understand that the original proposal has been revised. It has not been made clear what the changes to the original application have been but regardless I would like my original comments to be considered alongside this revised plan. I would also add that I understand that a new primary school in Anstey is being considered and understand this is likely to be on this side of the village. The plans do not include this so can only presume more building is being planned further along Groby Road. This all should be considered as part of this application.

Kind regards,
Carole West

Subject: Planning applications P/20/2251/2 and P/20/2252/2

Hi,

Please find attached a document with my comments and objections regarding the 2 outline planning applications that have been made relating to land both North and South of Groby Road, Anstey. My comments relate to both applications.

Many thanks,
Carole West
