Subject: New build Anstey

After looking at the new proposals on Groby Rd Anstey nothing has changed, the flooding has not changed, the Doctors are still full, the schools are still over crowded the roads are gridlocked, the extra 500 cars that would come with this new site will increase the pollution around the village, now lock down is being relaxed the village is completely gridlocked, I'm afraid this is an accident waiting to happen especially on Groby Road, with the A46 so close and an extra 500 cars the health of the village will suffer greatly. John Dilkes 37 Peartree Close Anstey
