Subject: FW: Planning Applications P/20/2251/2 P/20/2252/2

Good afternoon,
Further to my e-mails of the 6th April and 11th May, the New Masterplan for P/20/2252/2 does not address any of the detail in my previous representations.
Therefore, I would be grateful that my previous representations are still included in the decision making process for this planning application, also P/20/2251/2.
Kind regards,
David.

Good afternoon,
Further to my representations of 6th April 2021. I now enclose this photographic evidence, in my view, showing the severe levels of traffic through The Nook area of Anstey.
This photo was taken on Saturday 1st May 2021, 11.50am.
In my view, this shows an unacceptable level of traffic, remembering Anstey is a village and should not be subject to such levels of traffic, noting that we are still not at full capacity with traffic levels due to the Covid-19 pandemic.
I will also send more photographs separately, taken at the same time that day.
I would be grateful if these photographs could be added to my previous representations on the Council's website and forwarded to the case officer.
Kind regards,
David.
