Subject: Planning Consultation P/20/2252/2 and P/20/2251/2

Following the announcement in September 2021, from William Davis Homes, of their intention to build up to 500 houses on the Bradgate Road, and a new Infant School for the village, I would expect the traffic analysis performed by consultants for Davidsons for P/20/2252/2 and P/20/2251/2, to be re-evaluated, given the additional traffic from the William Davis Homes proposal would not have been anticipated at the time of the report.

Further more, the addition of a new infant school would also generate additional traffic, which must also be included.

regards

Graham Blackwell
